Riding and Driving Whips
Dear business partners and customers,

“At home in the world of equestrian sport” – this has been true of FLECK for almost 150 years. Over the years we have always kept up with the times, been inspired by new developments, researched the latest trends, deployed all our skills and expertise, and have constantly worked on making things better for you in line with our motto that there is always room to “improve on excellence”.

Success ‘Made in Germany’

FLECK is proud of the fact that, to this day, it develops its products itself and manufactures most of them in Schwarzach in the Odenwald. We are pleased that equestrians all over the world also love our high-quality whips. Our stated aim is to combine traditional craftsmanship with innovative technology. And we also intend to guarantee this quality in the future.

Success stories

Many of our FLECK riding and driving whips are bespoke products made exclusively to customer specifications. The successful development of the ultralight carbon whips, which now account for a major proportion of our product range and have many admirers all over the world, is one of the many chapters in the success story of our company. Our exclusive “Dressage DeLuxe” whip is a product of prime quality for the highest demands in dressage. The new REFLEX whips in fluorescent material or the SilkTouch whips, which feel so pleasant to hold and come in a popular retro design, are trendy additions to our range, bringing an entirely new sense of fashion.

Individual service

Going above and beyond in after-sales support for our trading partners is a matter of course for FLECK. We train our sales representatives to ensure that our expertise filters down to local stockists in the form of specialist individual advice and practical promotional aids. Our business partners are also well served over the telephone, by email or in person at our exhibition booths at the specialist trade fairs spoga horse in Cologne and AETA in the USA.

For your eyes only

It is with pride and pleasure today that we present the latest FLECK catalogue for 2018 featuring the full range and including trendy new products, popular best-sellers and good-looking designs.

Have we aroused your interest? Then we hope you will enjoy browsing through our new catalogue.

See for yourself how many riding and driving whips we supply and the wide selection of colours, materials and designs. Not only will they inspire you, but your customers will love them too.

Our sales team welcome your suggestions and will be happy to answer any questions you may have.

Kind regards

Rudi Maisack - CEO
Fleck GmbH & Co.

The combination of modern materials with traditional craftsmanship and contemporary design is the secret of the outstanding quality of the riding crops and whips made by FLECK.

The impressive results are high-quality whips with an unceasing supply of innovative features which are used worldwide in all equestrian sport disciplines and are loved by professionals and leisure riders alike.

Bespoke riding and driving whips
The most comprehensive product range in the world caters to virtually every conceivable demand. Should your customers express further individual wishes, simply contact our team of expert sales consultants. Our breadth of experience and our extensive selection of colours, braids and handle materials enable us to respond to very unique customer specifications.

Worldwide presence
The combination of modern materials with traditional craftsmanship and contemporary design is the secret of the outstanding quality of the riding crops and whips made by FLECK.

The impressive results are high-quality whips with an unceasing supply of innovative features which are used worldwide in all equestrian sport disciplines and are loved by professionals and leisure riders alike.

Professional after-sales service
The satisfaction of our customers remains our top priority even after selling our products. This is the only way to promote successful and long-lasting business relationships for all parties.

We adapt our service to accommodate your individual needs and wishes. Whether expert advice over the telephone or in person, repair or restoration by our professional workshop team, or discussion and agreement of individual specifications – your satisfaction is our daily motivation!

Sales support
In order to boost turnover and sustain sales of our riding and driving whips, we offer our customers a variety of advertising materials and promotional resources. We can provide custom-built units to make an attractive display of our products in your sales outlet and we can supply banner advertisements and brochures in support of your sales promotions.

We do our very best to get you results!
Successful front-runners know best what they need for top performance in their sport. Working with the best in their disciplines enables us to keep developing our products and perfect them for effective use in professional and recreational sports. Numerous innovative products of recent years have resulted from this cooperation and have since proven their calibre in all performance classes.
How to find what you’re looking for in our new catalogue even more quickly:
Finding information, selecting and ordering made easy.
Our newly designed catalogue is intended to make it even easier for you to find out everything you need to know about our products.
To enable you to find your way around the range quickly and easily, we have divided our crops and whips into three price categories: ECONOMY, PROFESSIONAL and PREMIUM.

With the relevant product illustrations you will find the particular colour options that are available for that product, both for grips and for crop and whip shafts.

Our complete range of colours for the extremely wide variety of materials is shown in true colour on the fold-out chart on the rear inside cover of the catalogue. The chart can be easily separated from the cover, by the way, and used as a handy bookmark.

Measuring crops properly.
According to the provisions of the the LPO - the regulation for German tournament sport - and the requirements of the International Federation of Equestrian Sports (FEI), in competitions it is essential that crops and whips are of the exact length.
A jumping bat, for instance, must be no more than 30" 75 cm long (incl. leather flap or lash) and a dressage whip no more than 48" 120 cm long incl. lash.
To help you find out all you need to know about the right crop and whip sizes, we have developed graphics that show you the way each article is measured. For ease of orientation, this information is provided on the relevant pages – a real help when it comes to giving advice to your customers!

Riding crops
Perfect resource for riding schools.
FLECK riding crops are versatile riding aids which enable the smoothest communication with the horse. Carefully crafted and fitted with a wrist loop, FLECK riding crops sit securely in the hand and inspire learners with confidence in their riding lessons, especially young riders.

Jumping bats

The secure grip allows the rider to react at lightning speed when split-second timing is required. FLECK jumping bats are first-class products designed to meet the highest demands in jumping and eventing. The special finish of the raw materials and the traditional workmanship invested in these riding aids provide amateurs and professionals alike with the perfect support in their sport. Precise action combined with contemporary chic and classic design.

“My personal Whip”

The whip collection – with space to inscribe your name.

Seek and you shall find! Unidentified whips in the tack room which all look the same are now a thing of the past thanks to “My personal Whip”! The whip collection with the name label for individual inscription will see the end of mix-ups! The inscribable whips come with FLECK grip, DELTA PRO grip, SuperSoft grip or in the FELDMANN Balance Sports model.

Size = Length of stick without flap
Unparalleled grip and ergonomic design.

Unbeatable grip and ergonomic shape – introducing the DELTA PRO grip by FLECK!

The secret of the DELTA PRO crops lies in the special rubber compound and the fine grooves in the surface which provide the firmest grip in the rider’s hand! The slim ergonomic design of the triangular handle also enables optimum hold and handling. The tapered handle on the dressage whip with DELTA PRO grip allows particular flexibility and can be held firmly in hands of all sizes. The jumping bat indicates a fixed position in that the leather tongue is kept in the correct position in relation to the horse at all times. No slipping, no twisting. No adjustment of grip needed. Perfect handling and an innovative fresh design.
Brilliant Performance.

FLECK dressage whips and jumping bats with rhinestones will add a sparkle to a performance on any showground. High-quality workmanship, as in the hand-braided leather handles, and a dazzling appearance underline the FLECK watchword that “there is always room to improve on excellence”. The deluxe model goes one step further, with premium jumping bats and dressage whips enhanced with sparkling original SWAROVSKI elements. For a brilliant performance on the showground. This is where practical perfection meets visual attraction.

SilkTouch – our innovation

The dressage whips and jumping bats in the SilkTouch range in the trendy RETRO and FASHION look are perfect for everyday riding needs!

The fibreglass core is treated with a special coating and the biggest plus point is its lightness. Thanks to this new finish and an elegant synthetic leather handle, SilkTouch whips are always one step ahead of other economy models, not only in terms of design. Ideal for use in daily training routines in the jumping and dressage arena.

CONTACT / EFFECT

Optimum grip, professional action and trendy design – these are all features of the CONTACT and EFFECT whips made by FLECK!

Their centrepiece is a special, high-strength fibreglass shaft which boasts an exceptional degree of precision. The use of the popular PU handles in conjunction with button caps of different sizes optimises balance and handling and therefore the intonation in communication with the horse. This is why FLECK crops in the CONTACT and EFFECT ranges are the optimum resource for daily use in training.

Dressage rider and multiple championship medallist Helen Langehanenberg, who has been in the world rankings for a decade, is just one of the aficionados of these whips which meet the most exacting demands!

Dressage whips

Boasting a timeless elegance, FLECK dressage whips are the perfect riding aid. Whether for professional or recreational use – FLECK dressage whips meet the demands of the most discerning riders! Core materials of the highest quality, such as fibreglass or CARBON, are taken and refined to form the basis for optimum flexibility, perfect balance and added durability. The finish of the whips, both with traditional leather handles and modern grip designs, completes the perfect relationship of form and function. Their precision is particularly impressive, as is their innovative design with many fashionable and classic colours, all combining to ensure a polished performance in the dressage arena.

TRIPLE dressage whips offer perfect ergonomics for hands of every shape and size. The TRIPLE brings together the best of three product lines. Our developers took the tried and tested BALANCE, IMPULS and DELTA crops and modelled a completely new, trendsetting design on them.

Its outstanding feature is the TRIPLE BALANCE handle which combines innovative design and sporty functionality at the highest level. It sits securely and comfortably in any size of hand thanks to the ergonomic triangular shape and the strength of grip of the materials used on the handle. The metal end, which is designed in the shape of an eyelet, also acts as a counterweight, thereby optimising the balance. TRIPLE dressage whips come in the three established FLECK quality levels of SOLID, FLEX and DeLuxe.

Perfect Balance

We designed these dressage whips with the input of a well respected horse expert! Walter Feldmann, trainer and breeder of the Aegidienberger gaited horse, has decades of practical experience in training and collaborated with us on the development of the original FELDMANN® Balance CLASSIC whip. The key characteristics of this whip are easy to grasp – in the truest sense of the word. The special two-part handle clearly defines the holding position for the various applications, making it easy for the rider to achieve the perfect position for optimum balance or range in the saddle. FELDMANN® Balance whips are designed to fit securely in the hand. Their special shape enables relaxed riding action and exceptional precision and confidence for beginners and professionals alike.

The current models and further highlights in this range are SPORTS, CARBON, STRASS and PREMIUM.

Communicating with your horse from the ground is not an easy task and it is a partnership which requires experience and precise assistance. This is made possible by FLECK whips made of modern materials like fibreglass and carbon composite. The ergonomic design of the handles ensures a secure grip while the high quality of the lashes guarantees an effective stimulus for the horse. This is how FLECK produces high-quality, durable and perfectly balanced touchier, lunging and vaulting whips “Made in Germany”.

Groundwork: touchier, lunging and vaulting exercises

Exceptionally elegant to look at and conducive to the highest precision when learning challenging lessons in riding – these are the premium dressage whips in the “Dressage DeLuxe” range. The slim DeLuxe leather handle also sits securely in the hand, even in demanding conditions. The perfectly balanced fibreglass middle and the fine leather tongue ensure that the signals from the rider’s hand are right on point. Traditional workmanship of the highest calibre in the “Dressage DeLuxe” caters to the demands of modern dressage specialists and world-class professionals like Charlotte Dujardin and Carl Hester. The classic design with hand-lacquered shaft, sleek leather grip and braided leather buttons radiates copious amounts of charm and style. “Dressage DeLuxe” offers absolute premium quality in a choice of three tasteful colourways.

Driving and carriage whips

Carriage drivers convey a noble impression of style and elegance. The right whip is a decisive detail which blends harmoniously into the overall picture. Thanks to carefully selected raw materials, traditional manufacturing processes and individual design, driving and carriage whips made by FLECK are reliable companions in carriage sports with breast collar harnesses. Safely positioned in the hand, they offer recreational drivers and professionals optimum support on the showground and in the open field.

Drop lash whips

Popular all over the world, drop lash whips are used in the traditional English carriage arrangement. They are extremely impressive in terms of precision action, adding the right style and providing the perfect aid for classic driving with pointed collar harnesses. Materials of the highest quality, such as classic natural wood, robust fibreglass or lightweight CARBON composite, are combined with optimum ergonomics in the FLECK drop lash whips to arrive at a particular level of comfort and safety in the hand. They prevent damaging impact on the joints, even in challenging training sessions, and offer reliable support for tandem and four-in-hand driving. A combination of traditional craftsmanship and innovation, they are the jewel in the crown in the whip manufactory at FLECK.
Drop lash Whips 48"-88" 120-220 cm length with 32"/40" 80/100 cm drop lash
Also available with 128"/152" 320/380 cm 4-in-hand-lash on request. Nearly all drop-lash whips can also be supplied with turnable or replacable lash.
