

FLECK Riding and Driving Whips

2026

SINCE 1870

*The company philosophy of **FLECK** riding crops and whips is informed by supreme quality and passion for equestrian sport. Our goal is to produce riding crops and whips of unsurpassed quality which meet the needs and expectations of professional and recreational riders all over the world. **FLECK** riding crops and whips are born out of decades of experience and craftsmanship.*

We are strict about standards in our factory, using only the best materials, insisting on sustainability and conserving resources. Our name is a byword for tradition and innovation, and we attach great importance to the perfect function and long life of our products. This is our pledge and one which our customers in all parts of the world can rely on.

Tradition meets modernity - handicraft celebrates revival

Our company enjoys a long tradition in craftsmanship and has now renovated its premises – not only externally but also getting to the heart of the business. Once dominated by pure manual work, know-how and experience, the space has given way to modern machinery operating side by side with time-honoured craftsmanship. With sophisticated logistics, digital planning, and precise machine optimisation, we have made way for more efficient processes without losing sight of our roots.

The resulting working environment is a place in which tradition is not replaced but reinforced – and one which delivers together with modern technology to produce convincing results.

Dear business partners and customers,

We are delighted to begin with news of a significant event in July 2025 when Maximilian Maisack joined **FLECK** GmbH & Co., making history in representing the fourth generation in our family business.

Our company and the **FLECK** brand have been synonymous with top quality, innovative capacity and great reliability around the globe for over 150 years. The entry of the next generation heralds a promising future built on this success story, remaining faithful to the old and established model yet bringing in new and fresh momentum.

Modern visions

This new generation will bring change to the **FLECK** whip manufactory, combining proven expertise with forward-looking strategies in an impressive fusion of tradition and innovation in our enterprise.

A sustainable path to the future is just as important to us as preserving traditional techniques. Our customers all over the world can continue to rely on **FLECK** Riding and Driving Whips in the future, doing business backed by competence and dependability.

Shaping the future - securing success

FLECK In addition to the classic disciplines, **FLECK** is investing ever more time in developing optimum aids for groundwork, such as lunging and touchier exercises. We make crops and whips specifically for these purposes in order to meet the high standards demanded by modern training methods.

FLECK innovations "Made in Germany"

Once again this catalogue features some groundbreaking new products made by our company:

With **EVO CARBON**, **SoftTex**, **SilkTouch** in pink and coffee, the brand new **Carbon Balance** driving whips, the **SoftTex Carbon** riding crops, and the new **SoftTouch** groundwork whips, we have again compiled a host of fantastic ideas to inspire equestrians all over the world.

We hope you will enjoy leafing through our new full **FLECK** 2026 catalogue and look forward to your suggestions and inquiries.

Kind regards

Rudi Maisack - CEO

FLECK: Where craftsmanship meets technical know-how

The **FLECK** whip manufactory in Schwarzach in the Odenwald region has been a byword for prime craftsmanship, supreme precision and top quality for nearly 150 years. Based on the wealth of experience in the traditional method of making whips passed down through the generations, FLECK has been guided by a principle since its early days which remains in place today that "there is always room to improve on excellence". In close consultation with the relevant people, our manufactory produces handcrafted riding crops and whips which cater to the needs in equestrian sport. Our experienced specialists combine skilled craftsmanship with technical expertise and design skills. This passion for perfection and attention to detail are fundamental to maintaining the consistently high quality of our riding and driving whips and to enabling continuous innovation.

FLECK puts the focus on the bespoke touch

Our comprehensive product range caters to the wide and diverse needs and preferences of our customers. Our team of expert sales consultants is always available to advise on individual requirements needing bespoke solutions. Boasting many years of expertise and an extensive selection of colours, braids and handle materials, we can respond to specific requests and offer customised solutions.

FLECK is at home in the world of horses

The mix makes all the difference at FLECK where modern materials meet traditional craftsmanship and contemporary design – for the perfect riding crops and whips. Our products boast durability and precision action, and are used worldwide in all equestrian sport disciplines. Professionals and leisure riders alike appreciate the quality of workmanship and thoughtful details.

FLECK professional after-sales-service

The satisfaction of our customers is our top priority and goes well beyond the point of sale. This is essential when it comes to building successful and long-term business relationships for everyone involved. Our service is tailored to the individual needs and wishes of our customers and business partners. Whether expert advice over the telephone or in person, repair and restoration by our experienced workshop team, or meticulous fulfilment of individual specifications – customer satisfaction is our daily motivation.

Tried and tested by the best!

FLECK sales assistance

In order to boost and sustain sales of our riding crops and whips, we provide our customers with a variety of advertising materials and promotional resources. There are custom-made display units to attract attention to our products on your premises, with additional support from high-quality banner advertisements and brochures providing information to promote sales.

FLECK cooperates with top front-runners

Successful front-runners know best what they need for top performance in their sport. Working with the best in their disciplines enables us to keep developing our products and perfect them for effective use in professional and recreational sports. Numerous innovative products of recent years have resulted from this cooperation and have since proven their calibre in all performance classes.

How to find what you're looking for in our new catalogue even more quickly:

Our complete range of colours for the extremely wide variety of materials is shown in true colour on the fold-out chart on the rear inside cover of the catalogue. The chart can be easily separated from the cover, by the way, and used as a handy bookmark.

ECONOMY

PROFESSIONAL

PREMIUM

With the relevant product illustrations you will find the particular colour options that are available for that product, both for grips ■ and for crop and whip shafts ●

Finding information, selecting and ordering made easy.

Our newly designed catalogue is intended to make it even easier for you to find out everything you need to know about our products.

To enable you to find your way around the range quickly and easily, we have divided our crops and whips into three price categories: **ECONOMY**, **PROFESSIONAL** and **PREMIUM**

Measuring crops properly.

According to the provisions of the the LPO - the regulation for German tournament sport - and the requirements of the International Federation of Equestrian Sports (FEI), in competitions it is essential that crops and whips are of the exact length.

A jumping bat, for instance, must be no more than 30" 75 cm long (incl. leather flap or lash) and a dressage whip no more than 48" 120 cm long incl. lash.

To help you find out all you need to know about the right crop and whip sizes, we have developed graphics that show you the way each article is measured. For ease of orientation, this information is provided on the relevant pages – a real help when it comes to giving advice to your customers!

RIDING ***crops and whips***

For precision in the daily riding routine

- Ideal everyday companion
- Precise communication
- Hand strap for secure handling and steady grip

Everyday life with horses is about communication.

FLECK whips are designed to assist the rider, providing comfort, precision and a secure grip in the hand.

The hand strap is especially helpful for young riders learning to exercise precision control.

JUMPING *bats*

For split-second accuracy at the showground

- Second-by-second precision
- Ergonomic design for steady control
- High-quality materials and continuous improvement

Precise split-second control is essential when approaching the obstacle to get the horse and rider safely to the other side. Decisions at show-jumping events have to be made in fractions of a second.

The necessary assistance is provided by a jumping bat which sits securely in the hand and can be used with precision.

JUMPING. DRESSAGE. GROUNDWORK.

Innovation brings change: EVOLUTION

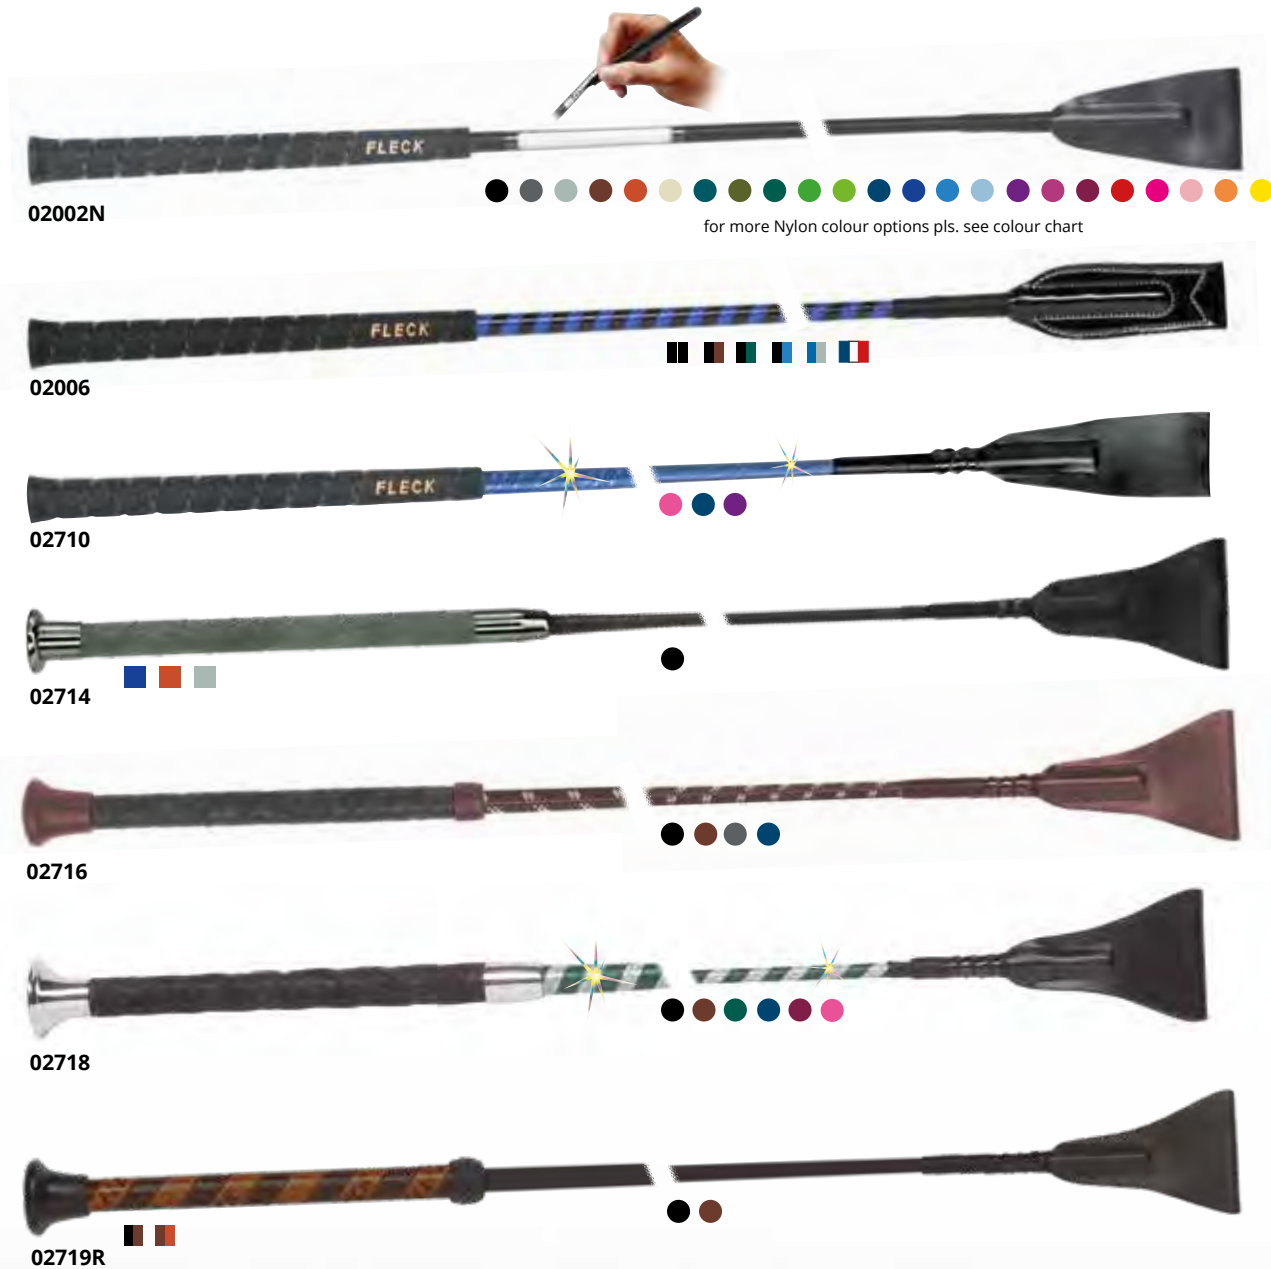

The new **EVO** whip handle developed by FLECK offers ergonomics in absolute perfection. With its variable, ergonomic grip zones, the **EVO** handle provides sensational control and enough space for the rider to hold the reins in the optimum position – regardless for any hand size. In addition to the distinctive grip, the additional advantage of the **EVO** handle lies in its versatility in showjumping, dressage and groundwork.

SilkTouch – our innovation

The dressage whips and jumping bats in the **SilkTouch** range in the trendy **PREMIUM**, **CRYSTAL**, **RETRO** or **FASHION** look are perfect for everyday riding needs! The fibreglass core is treated with a special coating and the biggest benefit is its lightness. Thanks to this new finish and an elegant synthetic leather handle, **SilkTouch** whips are always one step ahead of other economy models, not only in terms of design. Ideal for use in daily training routines in the jumping and dressage arena.

DELTA PRO

Unbeatable grip and ergonomic shape – introducing the **DELTA PRO** grip by **FLECK**!

The secret of the **DELTA PRO** crops lies in the special rubber compound and the fine grooves in the surface which provide the firmest grip in the rider's hand! The slim ergonomic design of the triangular handle also enables optimum hold and handling. The tapered handle on the dressage whip with **DELTA PRO** grip allows particular flexibility and can be held firmly in hands of all sizes. The jumping bat indicates a fixed position in that the leather tongue is kept in the correct position in relation to the horse at all times. No slipping, no twisting. No adjustment of grip needed. Perfect handling and an innovative fresh design.

„My
personal
Whip“

The whip collection –
with space to inscribe your name.

Seek and you shall find! Unidentified whips in the tack room which all look the same are now a thing of the past thanks to “My personal Whip”! The whip collection with the name label for individual inscription will see the end of mix-ups! The inscribable whips come with **FLECK** grip, **DELTA PRO** grip, **UltraSoft** grip or in the **FELDMANN Balance Sports** model.

Contact EFFECT

CONTACT / EFFECT

Optimum grip, professional action and trendy design – these are all features of the **CONTACT** and **EFFECT** whips made by **FLECK**!

Their centrepiece is a special, high-strength fibreglass shaft which boasts an exceptional degree of precision. The use of the popular PU handles in conjunction with button caps of different sizes optimises balance and handling and therefore the intonation in communication with the horse. This is why **FLECK** crops in the **CONTACT** and **EFFECT** ranges are the optimum resource for daily use in training.

Dressage rider and multiple championship medallist *Helen Langehanenberg*, who has been in the world rankings for a decade, is just one of the aficionados of these whips which meet the most exacting demands!

03022

03023

Fits like a glove in every rider's hand!

TRIPLE dressage whips offer perfect ergonomics for hands of every shape and size. The **TRIPLE** brings together the best of three product lines. Our developers took the tried and tested **BALANCE**, **IMPULS** and **DELTA** crops and modelled a completely new, trendsetting design on them. Its outstanding feature is the **TRIPLE BALANCE** handle which combines innovative design and sporty functionality at the highest level. It sits securely and comfortably in any size of hand thanks to the ergonomic triangular shape and the strength of grip of the materials used on the handle. The metal end, which is designed in the shape of an eyelet, also acts as a counterweight, thereby optimising the balance. **TRIPLE** dressage whips come in the three established **FLECK** quality levels of **SOLID**, **FLEX** and **DeLuxe**.

FELDMANN®

Balance Whip

Perfect Balance

We designed these dressage whips with the input of a well respected horse expert!

Walter Feldmann, trainer and breeder of the Aegidienberger gaited horse, has decades of practical experience in training and collaborated with us on the development of the original **FELDMANN® Balance CLASSIC** whip.

The key characteristics of this whip are easy to grasp – in the truest sense of the word. The special two-part handle clearly defines the holding position for the various applications, making it easy for the rider to achieve the perfect position for optimum balance or range in the saddle. **FELDMANN® Balance** whips are designed to fit securely in the hand. Their special shape enables relaxed riding action and exceptional precision and confidence for beginners and professionals alike. The current models and further highlights in this range are **SPORTS, CARBON, STRASS** and **PREMIUM**.

FLECK POCKET

portable training equipment

The innovative Pocket whips for professional and leisure use are robust, ultralight and extremely practical. The best feature of all is the telescopic function which allows the Pocket whip to be reduced to a compact size, taking up less space, and pulled out for use in a matter of seconds. Their advantages include the slim X-tec handle for optimum positioning in the hand and the use of high-tech carbon for maximum stability and resilience combined with amazingly low weight.

LUNGING

whips

For understanding and cooperation

- Clever design and ergonomic handles
- Modern materials
- Optimum communication

Groundwork is an extremely valuable addition to the everyday riding routine. One key factor is the use of precise cues through voice commands, as is the optimum ease provided by light touches with whips made of high-quality core material.

DRIVING- & CARRIAGE*whips*

For optimum communication in carriage sport

- Carefully selected materials and traditional handicraft
- Optimum communication on the reins
- Reliable companion for every breastplate harness

Navigating cones and cross-country courses are often fast-paced. Actions need to take effect within the shortest possible time. Whips which bear no compromise and sit perfectly in the hand are an invaluable advantage in every situation in these events, ensuring a safe finish without any faults.

DROP LASH

whips

For modern carriage sport

- The classic driving whip
- Reliable aids used for generations
- Dependable partner for English collar harnesses

Riders who use a lash whip and a traditional collar harness want to make a statement. The message is that driving should be showcased in all its beauty and elegance. FLECK bow whips are also the 1st choice for tournament driving in the countryside. The excellent balance of the FLECK lash whip facilitates an ergonomic posture and steady handling of the reins and whip.

Liefer- und Zahlungsbedingungen

- I. **Lieferbedingungen:**
Die Lieferung erfolgt auf Rechnung und Gefahr des Käufers. Der Versand erfolgt unversichert. Warenmängel können nur innerhalb 8 Tagen nach Empfang der Ware am Bestimmungsort vorgebracht werden.
- II. **Eigentumsvorbehalt:**
Bis zur restlosen Bezahlung des Kaufpreises, insbesondere der völligen Abdeckung der Wechsel und Schecks, behält sich die Lieferfirma das Eigentumsrecht an sämtlichen von ihr gelieferten Waren vor. Das Eigentumsrecht erstreckt sich zusätzlich auf Warenbestände, die aus einer früheren, aber bezahlten Lieferung stammen. Der Käufer darf die von dem Eigentumsvorbehalt betroffene Ware ohne Zustimmung des Verkäufers weder verpfänden, noch sicherungshalber an Dritte übertragen. Im Falle gerichtlichen Aktenzeichens, damit die Lieferfirma in die Lage versetzt wird, unverzüglich wegen Freigabe ihres Eigentums die erforderlichen Schritte zu unternehmen. Wird die Ware vor restloser Bezahlung des Kaufpreises weiterverkauft, so gilt der Anspruch des Käufers auf Zahlung des Kaufpreises als an den Verkäufer abgetreten.
- III. **Zahlungsbedingungen:**
Zahlbar innerhalb 10 Tagen nach Rechnungsdatum mit 3% Skonto oder innerhalb 30 Tagen nach Rechnungsdatum ohne Abzug.
- IV. **Lieferzeiten:**
Alle Liefertermine, seien sie vom Verkäufer genannt oder vom Käufer vorgeschrieben, gelten als annähernd und ohne jede Verbindlichkeit. Lieferungserschwerungen durch Betriebsstörungen und dgl. verursacht, berechtigen den Verkäufer, die Lieferung ganz oder teilweise einzustellen. Ansprüche des Käufers auf Schadenersatz wegen Nicht- oder nicht rechtzeitiger Erfüllung sind vertraglich ausgeschlossen.
- V. **Erfüllungsort für Lieferung und Zahlung:**
Für alle aus den Geschäften sich ergebenden Rechte und Pflichten gilt als Erfüllungsort für beide Teile 74869 Schwarzach. Gerichtsstand für beide Teile ist 74821 Mosbach, soweit gesetzlich zulässig.
